

# make your paper snowflake

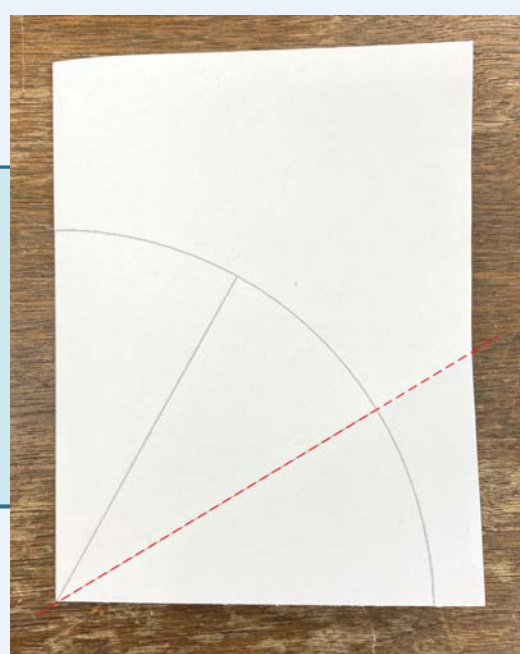

**Start by folding the template horizontally in half along the marked line**

**Next, fold the template in half vertically along the marked line**

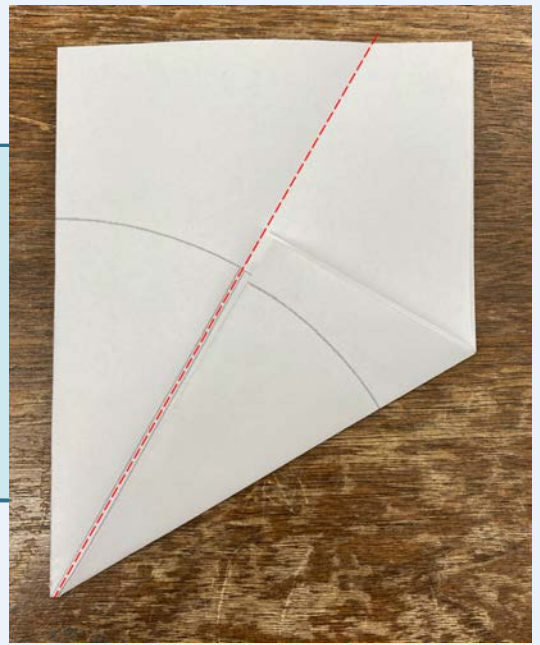

**Now, flip your paper over so the side with the pattern is face down**

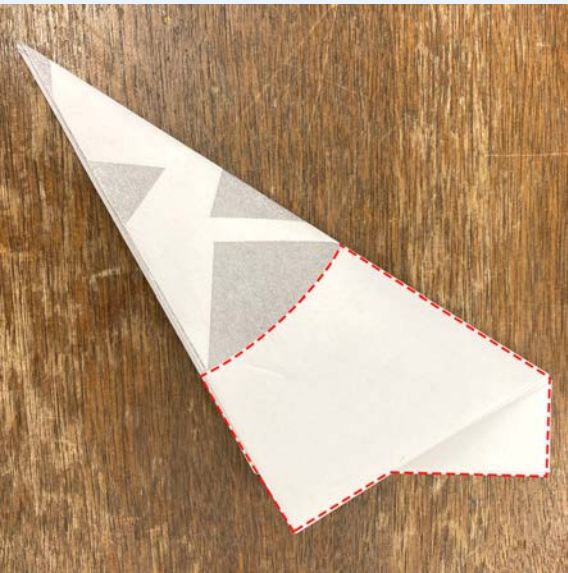

**Then, fold the paper up along the marked line.**

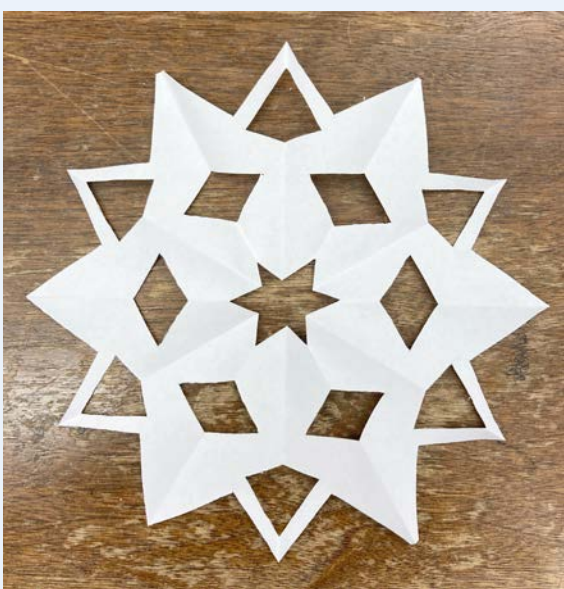

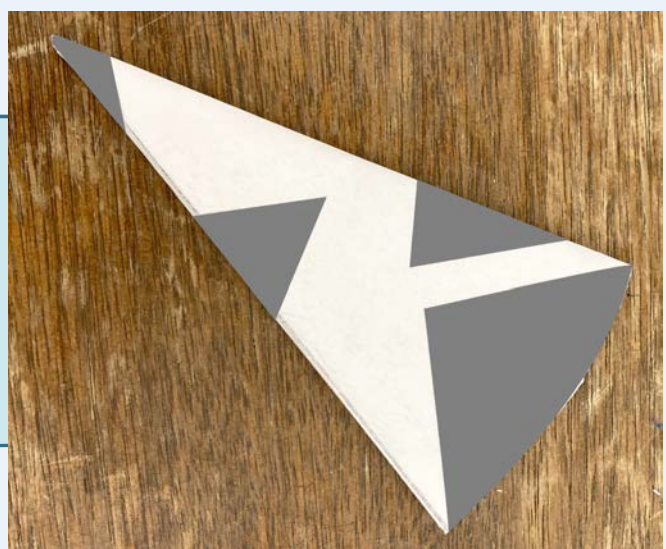

**Next, fold the paper down along the marked line so the picture is the top layer.**

**Now it's time to get to the cutting! Start by cutting off all of the circled area.**

**Next, cut away all of the gray areas on the pattern. Then unfold**

**Tadah! To flatten your snowflake press it under or inside of a heavy book.**
