

make your paper snowflake

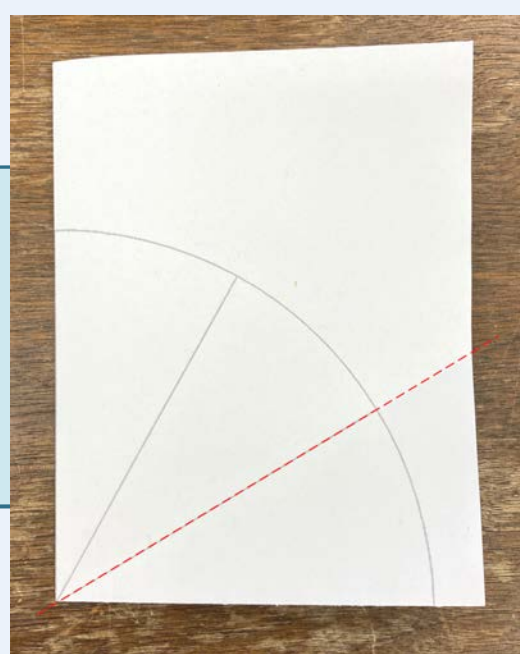

Start by folding the template horizontally in half along the marked line

Next, fold the template in half vertically along the marked line

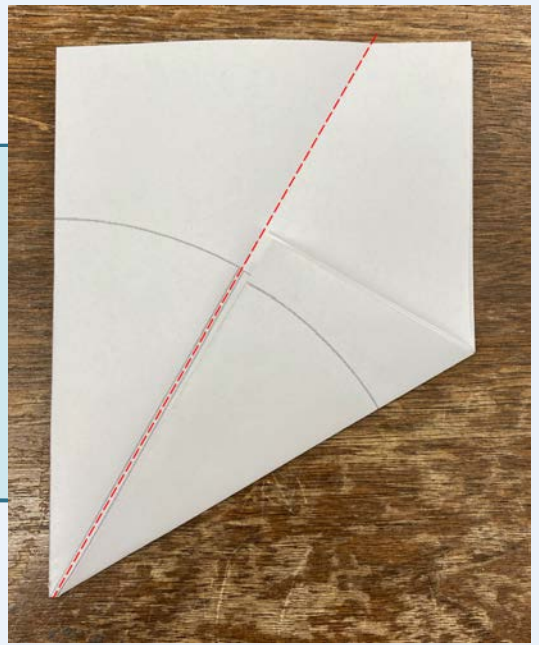

Now, flip your paper over so the side with the pattern is face down

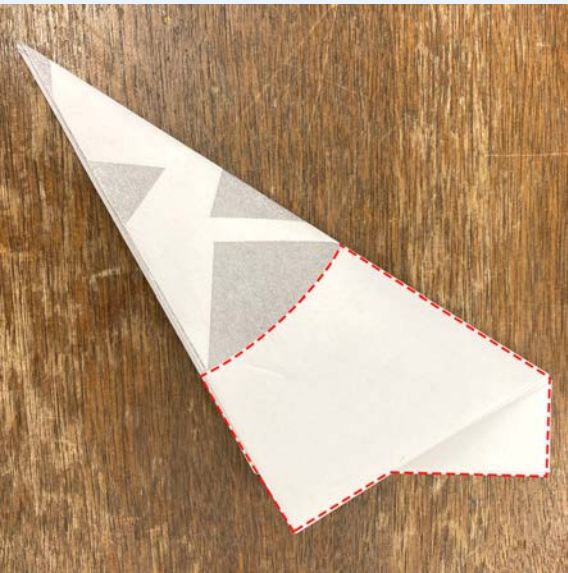

Then, fold the paper up along the marked line.

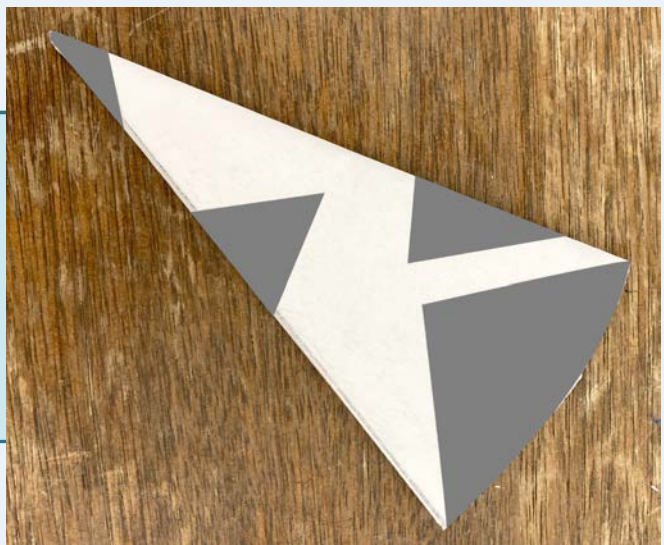

Next, fold the paper down along the marked line so the picture is the top layer.

Now it's time to get to the cutting! Start by cutting off all of the circled area.

Next, cut away all of the gray areas on the pattern. Then unfold

Tadah! To flatten your snowflake press it under or inside of a heavy book.
